Extruded Square
Edge Pavers
45° Herringbone
with Sailor Band

Brick is so familiar on homes and walls it's easy to overlook how its durability, natural beauty and unique warmth can enhance things horizontal — walkways and paths, patios and driveways. Yet it has a very long history of complementing the landscape and welcoming guests.

Here's what others have dreamed and made possible using this ever-popular, down-to-earth material. When you imagine making a path or paved area a lasting reality, choose real Brick, Genuine Clay Pavers installed the all-natural way — no concrete, no mortar, 100% natural beauty.
